- Excellent technical and mechanical skills.
- Ability to use basic hand, power, and diagnostic tools
- Strong analytical and problem-solving skills.
- Minimum of 5 years of progressive work experience in ammonia refrigeration service
- Excellent interpersonal and customer service skills.
- Excellent time management skills with a proven ability to meet deadlines.

Physical Requirements:

- Must be able to pass drug screen for employment
- Must be able to pass physical examination and Respirator FIT Testing.
- Physically able to climb ladders, work at high elevations and lift objects up to 50lbs.
- Availability to work overtime and weekends.
- Prolonged periods of working in variety of temperature change environments

Exempt/ Non-Exempt: Non-Exempt

Full-Time/Part Time: Full-Time

About the Organization: Fisher Refrigeration, Inc. has been designing and installing quality industrial refrigeration systems for the food processing, cold storage, pharmaceutical and chemical industries. Our service department is one of the best trained in the industry, while the parts departments maintain an extensive inventory of genuine replacement parts for most manufacturers of refrigeration equipment. Our engineering staff can assist you in designing a new system, making upgrades to an existing system, or complying with current codes.

Equal Opportunity Employer Statement: Fisher Refrigeration, Inc. is committed to a diverse and inclusive workplace. Fisher Refrigeration is an equal opportunity/affirmative action employer. All qualified applicants will receive consideration for employment without regard to sex, gender identity, sexual orientation, race, color, religion, national origin, disability, protected veteran status, age, or any other characteristic protected by law.

As a general policy, Fisher Refrigeration, Inc. does not offer employment visa sponsorships upon hire or in the future.
